20 November 1996

To Whom it May Concern,

On November 11th and 12th a team from Jared Langley Roofing replaced the roof on our home. The job entailed removing the old and broken cedar shakes and replacing them with asphalt composite shingles.

The work was done both professionally and quickly. The members of the roofing team were both skilled and courteous. They did the job with limited impact on our daily lives. They answered our questions with the patience necessary for our complete understanding of the work at hand. Their cleanup efforts were commendable.

Our dealings with Jared Langley were extremely friendly and professional, a rare combination in today's world. Jared returned all phone calls quickly. The price quoted for completion of the job was both extremely competitive and extremely reasonable.

We would highly recommend Jared Langley Roofing and we would be happy to speak to anyone about the fine job done on our roof.

Sincerely,

Scott and Suzie Corbitt
