RE: m Roof replacement at 220 East Central

To Whom It May Concern,

In May of 2005 we contracted with Jared Langley Roofing and Remodel to replace the roof on our house at 220 East Central in Missoula. The old roof was complicated with many hips, valleys, dormers and the need vto strip of the old wood and asphalt shingles.

The new roof was laid with sheathing, felt and shingles in a very professional and timely manner taking care to protect the shrubs and flowerbeds surrounding the house. The clean up was complete. Not only was this our lowest bid but the final cost was less than the original estimate.

We would recommend Jared Langley Roofing and Remodel because of our satisfaction with the workmanship and professionalism that we experienced.

Sincerely,

Laela and Dick Shimer
220 East Central
Missoula, Montana 59801
